## CARIEER OBJECTIVE:

---

I am a Web Developer passionate about creating responsive, user-friendly web applications. With expertise in JavaScript frameworks, API integration, and clean coding practices, I aim to contribute to impactful projects, solve challenges, and enhance user experiences while advancing in web development.

## SKILLS:

---

**Frontend:** HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React JS, Next JS ,

**Backend:** Node JS , Express JS, Firebase

**Database:** MongoDB, MySQL

## PROJECTS:

---

### 1. Electro-Mart - Engaging E-Commerce Experiences:

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

Electro-Mart, a team project, offers a seamless shopping experience with product exploration, deal comparisons, and exclusive discounts—all in one place!

#### Feature Key:

- Users can browse and purchase products by making secure payments directly on the platform.
- Engage with others through a built-in chat feature for seamless communication.
- My contributions to this project include developing key pages like the Banner, Compare, Wishlist, Shop, Store, Promotion, About Us, Contact Us, and other essential pages, ensuring responsive design, implementing user-friendly navigation, and integrating API functionality.

**Technology:** Tailwind CSS, JavaScript, React JS, React Hook, tan-stack query, Firebase, MongoDB, Node JS, Express JS, TanStack Query, Axios, JWT

### 2. Online Group Study - Collaborative Learning Hub for Assignments:

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

Developed a user-friendly front-end for group study and assignment submission. All assignments can be submitted and updated as needed.

#### Feature Key:

- Share contest details on WhatsApp, Linkedin, Messenger, Telegram, and Twitter with Just one Click
- Anyone can submit an assignment.
- You can update your submission if needed.

**Technology:** Tailwind CSS, JavaScript, React JS, React Hook , Firebase, MongoDB, Node JS, Express JS, Axios .

### 3. Winning Zone-Contest management Application:

[Live Link](#) | [Client Repo](#) | [Server Repo](#)

I specialize in creating engaging websites for contests in diverse categories, including design, article writing, marketing strategy, digital advertising, gaming reviews, book reviews, business ideas, and movie reviews.

- After logging in, you can join any contest by paying the chosen entry fee and view your details on the dashboard.
- After creating a competition, it requires admin approval. Once approved, you can participate in the contest
- If the contest is won, the first, second, and third places will be displayed as winners.

**Technologies:** Tailwind CSS, JavaScript, React JS, React Hook, tan-stack query, Firebase, MongoDB, Node JS, Express JS, TanStack Query, Axios, JWT

## Education:

---

NIT (Chittagong, Bangladesh) — Diploma, Computer Science (May 2022- PRESENT)
